Experience in partnering with Fortune 500 scale enterprises on their Digital Transformation initiatives by discussing with key decision makers their short and long term needs, then utilizing best practices of Microsoft Azure and Office 365 to help them formulate their Digital Strategy.

I have been successful at communicating and influencing with individuals of all capacities, including at the senior management level with a client and with partners at vendors (for example, Microsoft Technical Account Managers), through following the best practices of the Software Development Lifecycle (SDLC). I am eager to gain greater insights into the business by collaborating with an experienced team.

Skills

- Software Architecture – Microsoft Office 365 & Azure
- ASP.NET + SQL Server Web Applications
- Static HTML + CSS + JavaScript Web Sites
- Relationship Management
- Team Lead experience over globally distributed support team
- Software Development Life Cycle
- Project Management
- Change Management

Recent Experience

OCTOBER 2014 – PRESENT

Software Architect / Atos, Bentonville, AR

Provide Information Technology Outsourcing (ITO) solutions to Fortune 500 scale clients who need solution architecture, proactive maintenance, configuration, patching, and incident identification and resolution for their SharePoint On-Premises or Office 365 environments.

Collaborate with the client, other ITO providers, and Microsoft on developing and executing long term road map for digital transformation initiatives.

Utilize the Microsoft Gold Partner strategic alliance that Atos has with Microsoft to create proof of concept Office 365 environments for my clients.

Clients that I've supported have been:

- NIKE, Inc. - Served as a local liaison between Nike's World Headquarters (WHQ) campus in Beaverton, Oregon and the Xerox/Atos globally distributed SharePoint Architecture and Support team that was contractually responsible for Nike's On-Premises SharePoint farms.
- Xerox - Served in a staff augmentation role on their IT Infrastructure Architecture team covering Xerox's internal corporate SharePoint, Search, and Yammer hosting services with a total population of 143,000+.

- Conduent, Inc. – Currently serving in a staff augmentation role on their IT Infrastructure Architecture team accountable for: SharePoint, OneDrive, Search, Teams, Yammer, and the overarching Office 365 Tenant cross workload integration with a total user population of 96,000.

Note: Initial employment was with Xerox's ITO business and transitioned to Atos in June 2015 after the acquisition was completed.

NOVEMBER 2006 – MARCH 2014

ASP.NET and SharePoint Designer, Developer, and Administrator / Parkview Health, Fort Wayne, IN

Technical lead on the implementation of the following SharePoint projects:

- SharePoint 2007 iterations of parkview.com (general information about the organization), parkviewtotalhealth.com (information regarding the Signature Care PPO network, Occupational Health, Employee Assistance, and Workplace Wellness service lines), and the corporate extranet.
- SharePoint 2010 iteration of the Community Connect extranet.

Member of project team responsible for initial deployment of the SharePoint 2007 iteration of the corporate intranet. Was the lead on safely customizing the look and feel of the site using custom CSS and images to override the defaults. This avoided conflicts with the operation of the system.

Designed, developed, implemented, and supported custom web applications with ASP.NET and either a SQL Server or Oracle database.

Partner with other teams or representatives in the business and business partners/vendors, such as Executive, Human Resources, Laboratory, Legal, Marketing, Nursing, Physicians, Sales, Active Directory Admins, Network Admins, SQL Admins, Windows Desktop Admins, Windows Server Admins, Microsoft and Microsoft Partners that provide add-ons or customizations to ensure that all of the ASP.NET and SharePoint systems meet the needs of the whole business.

Education

MAY 2003

Computer Graphics Technology / Purdue University, West Lafayette, IN

Specialized in study of Interactive Multimedia (graphic design, video editing, and web site creation).

Semester Honors: Fall 1998, Spring 2000, Fall 2002, Spring 2003

Dean's List: Fall 1998, Spring 1999, Spring 2000

Member of the Golden Key International Honour Society

Activities

My passions involve supporting the arts, volunteering, working with people who value teamwork and being an active citizen in my community.

The majority of my volunteering over the years has been with the [Barr Street Market](#) as one of two co-chairs. I helped with collaborating with volunteers, booking entertainers to perform at the market, getting feedback from vendors, updating the market's website and social media page.

My wife and I currently volunteer with the cycling events in Northwest Arkansas, the majority being with the [Arkansas Interscholastic Cycling League](#).

I currently hold a Microsoft certification, [Exam 347: Enabling Office 365 Services](#).
